

ANNOUNCEMENT OF THE FIRST ARIZONA POSTGRESQL USERS GROUP

The first Arizona PostgreSQL Users Group meeting will be held March 29 at Bull's Phoenix facility. For directions, [click here](#).

If you're a PostgreSQL user, meet other users and enjoy discussing the many current and future features of PostgreSQL.

If you're a database and/or IT professional who doesn't currently use PostgreSQL, you can chat with PostgreSQL users and find out why they like it so much.

Future users' group meetings can cover topics such as:

- How PostgreSQL has replaced other relational databases, yielding large cost savings since PostgreSQL has no license fees
- How PostgreSQL has replaced other relational databases
- What operating systems PostgreSQL runs on
- What kind of migration tools are available
- VMware's involvement in the PostgreSQL community
- PostgreSQL Releases and their features
- The PostgreSQL.org web page
- PostgreSQL resources here in Arizona
- Others based on the talents and interests of those that join

Please join us at the first meeting of the Arizona PostgreSQL Users Group. To RSVP and get on the mailing list, go to the following web site:
